An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The Specification has been amended as follows:

On page 1, paragraph [0001], line 2, after "2000" insert --now US Patent No. 6,706,415--.

Claims 1-46 are allowed.

The following is an examiner's statement of reasons for allowance:

Applicant states that it is known in the prior art to provide protective coatings on the exterior housings of compressors to provide corrosion resistance. The prior art cited by the Examiner teaches protective coatings for compressors wherein the coating is a metallic layer disposed by spraying, although the coatings are applied to the interior surfaces of the compressor.

The cited prior art and that admitted prior art by Applicant does not teach or suggest the formation of a protective coating on the exterior shell housing of a compressor by spraying a metallic layer to form said coating.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably

accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Jason L. Savage whose telephone number is 571-272-1542. The examiner can normally be reached on M-F 6:30-4:00.
